macOS First Start and Enrollment Guide

On starting your Mac, you will be asked to "Select Your Country or Region".

Select **United States** and click **Continue**.

PXIge20220607 ty641118771.jpg

You will now see "Accessibility". If you have accessibility needs, please explore this section.

Otherwise, click **Continue**.

PXIge202f20607 tyl64l127308 1.jpg

Under "Select Your Wi-fi Network" select **NPS-Guest** and hit **Continue**.

After your computer enrolls, it will automatically switch from NPS-Guest to one of our managed networks.

PXIge202f20607 tyl64l186684 1.jpg

After a short wait, you will see the "Remote Management" screen. Click Continue.

PXIge202f20607 tyl64l157845 1.jpg

After a few moments, you will a sign-in screen.

Use **two fingers on the touchpad** to scroll down to see the **Username** and **Password** fields. Enter your **Username** and **Password** for your Newburyport account. These are the same credentials you use for PCs in the district, school Chromebooks, and your email. However, please make sure you are not entering your full email address.

Click **Sign in**.

PXIge20220607 tyl6421/25/20.jpg

You will then see a screen stating "Your enrollment profile is ready!".

Click **Enroll this device**.

PXIde20220607 t 1642275161.jpg

The next screen will be titled "Create a Computer Account". Please enter the password for your Newburyport account.

This password must be the same as the one you just entered to enroll.

Enter your password twice to confirm and click **Continue**.

PXIge2026007 tyl642435/14.jpg

On the "Select Your Time Zone" screen, select **Set time zone automatically using current location**.

PXIge20220607 ty64384008.jpg

When prompted, click Turn On Location Services.

PXIge20220607 typ64341b832.jpg

After a short wait, you will be brought to your desktop. **You are now enrolled!** Feel free to start using your computer.

The default software package will install over the next hour. This includes Microsoft Office, Google Chrome, Google Drive, and Mac specific tools we will explain in detail elsewhere in the wiki. Feel free to use your computer while these steps finish up.
